

IHC-D-113.4/26
23 July 1970

UNITED STATES INTELLIGENCE BOARD
INTELLIGENCE INFORMATION HANDLING COMMITTEE

MEMORANDUM FOR: IHC Members

SUBJECT: Removal of a COINS Primary File

REFERENCE: IHC-D-113.4/22, 3 February 1970

25X1 1. The reference requested that IHC concur in the removal of [] a primary file, from the COINS System.

25X1 2. The Air Force, in discussion with DIA, has indicated some desire to retain [] in COINS. However, a written justification for retention of this particular file in COINS has not been received. All other IHC members have concurred in the removal [] from COINS.

25X1 3. The sponsoring agency for [] file, 25X1 DIA, is presently converting their COINS files in order to transfer them from the IBM 360/50 system to the GE 635 (DIAOLS) system by 1 October 1970. Since it was anticipated that the removal of this file would be approved, [] has not been 25X1 converted for the GE 635 (DIAOLS) system and will not be available to COINS users after the transfer of the files.

25X1 4. Other [] information could become available to COINS users in the future pending a study of the order of battle problem by a COINS data-base review panel.
